Public Employment Offices In Theory and in Practice

(Continued from the Edmonton

Edmonton Association of Charities and Corrections, held at Winnipeg recently, and Mr. J. J. Miller, state superintendent of Wisconsin's employment office, read a paper on the subject of public employment offices. It was so good that the speaker was given an adequate summary of its contents. The limits of the paper were especially as it seemed wise to use Dr. Leiserson's own words as far as possible.

The demand for employment office work comes from the normal condition of the labor market. Few people, he says, realize the amount of work in every industrial community that consists of short jobs. In Wisconsin fully one-fourth of the total demand for labor registered at the employment office is for work lasting less than a month. The New York commission on Unemployment reported in 1911 that four out of every ten wage earners work irregularly and have to seek employment at least once, probably many times during the year. The same commission elicited from the statements of 750 employers that 40 per cent. could always get all the help they needed, and practically all of them, hired their forces from people who made personal application at their plants. 280 advertised in newspapers and hired from among those who made personal application. "The reason most employers can get all the help they need at their gates is because there are thousands of such men and women going from door to door and hundreds responding to each ad given in the newspapers. Think of the waste of time and energy and the discouragement in going from door to door to ask if any help is needed." And yet we are told that "there is no permanent surplus of labor in excess of the demand." At least no evidence at all to show a surplus of labor over the maximum demand for labor of all employers. It is entirely a problem of maladjustments. There are of three kinds: 1. In respect of place; wage earners may be scarce in one place and over supplied in another. 2. As between industries; some are overworked while others are under-supplied. 3. In respect of time; winter usually shows an excess of supply, and some years show a scarcity while others show an excess. "The entire burden of this maladjustment is borne by the wage-earner. It is he who suffers from the loss of time and energy; and moreover the failure to get a job quickly makes him willing to take work at any price, and tends to keep wages down."

"These evils are the price we pay for lack of organization in the buying and selling of labor. An organized market for labor is needed for the same reason that other markets are organized, to eliminate waste and facilitate exchange and to make the supply and demand quickly together. Public employment offices scientifically managed may be used to reduce the maladjustments, and where they cannot entirely abolish them they can give the facts which will enable us to devise means of mitigating their effects and compensating those who must bear the burden. With an accurate system of statistics and daily reports from each public office there is no reason why the conditions and the transactions of our labor markets cannot be as reliably reported on the printed pages of our newspapers as are the transactions of the stock market, wheat, pigs, produce, etc. This would go far toward eliminating maladjustment in regard to place. It is the only source of information that the government distributes to business men in its consumer reports, geological surveys, and its publications on natural resources. It is an organization of the labor market just as the stock market, the hog market, the wheat market are organized to facilitate the buying of these products. What information could be more important to a people than to know exactly where opportunities are open for men to apply their energies to make their living? Or these offices may be conceived as power houses for labor. The current of labor must be directed away from the districts and industries that show a slackening demand to where the demand is quickening; just as electric power houses shift the current in the evening and on holidays from business districts to residence sections."

"As institutions for furnishing information, public employment offices should, as one of their greatest functions, stand at the entrance of the industrial world to point the way to children and immigrants. For the former, co-operation with the schools is necessary. Before quitting school children and their parents should be furnished with bulletins of information describing the requirements or various callings and the opportunities in them. These can be prepared by the officials of the employment offices, for they are in the closest touch with employers and know the demands of industry. The teachers can inform the parents as to the attitude of the children, and with this information a careful and intelligent choice can be made. With regard to immigrants, Dr. Leiserson says that these offices should employ clerks that speak the language of the newcomers. These clerks should prepare in the native tongue of the immigrants bulletins describing the industrial opportunities in the state and should advise and direct the newcomers into the most promising fields. To this end, the clerks must keep constantly in touch with the various schools for foreigners and the residence sections and boarding houses for immigrants."

"The idea of charity in connection with public employment offices must be entirely eliminated. The staff charity has been fatal to philanthropic agencies. No self-respecting wage earner wants to apply to a charitable agency and an employer will call for efficient and steady help at such an agency. Free employment

deal with the problem of unemployment will never be undertaken by private labor agents, because there is no incentive for them to do it. It involves expense for which there is no return, except to the state as a whole in securing the fullest application of its labor force and in placing the burden of unemployment on industry where it belongs."

Dismissing Mr. Heile's plan that over-privileged business men should organize the labor market on a large scale, he mentions that a basic condition of success is that they must be impartial between employers and workers in their struggles over conditions of employment. That was a warning that they must not be agencies maintained by employers, because of its possible use for blackmail, breaking strikes and beating down wages; and on the other hand, agencies maintained by trade unions, fall because employers will not patronize them except where the trade is completely organized, or if the unions too powerful a weapon in the struggle for control. This work to be successful really needs to be carried out by a central, impartial organization, which will be a success of them. And if it is more true of private employment agencies than of public, that most of them have been frauds as well as

free employment offices have not been as successful as they should be. That while in theory they were designed to furnish clearing houses for labor, to bring the job and the man together with the least delay and to eliminate the private labor agent, whose activity as a middleman is so often accompanied by fraud, misrepresentation and extortion. In practice the free offices have not even maintained an effective competition against them. With few exceptions, their operations have been on a small scale, their methods unbusinesslike and their salaries valueless if not unreliable. The chief cause for the failure of the free employment offices has been that the administration has been placed in the hands of people who are unsympathetic with their design and purpose. These offices have either mismanaged the office, so that they had to be discontinued or else they performed their duties perfunctorily and in a wholly ineffective manner."

Dr. Leiserson says: "I have no defense to make of the free employment offices of the United States. All the criticisms that have been directed against them is well deserved, but it is not final, because some states have made a success of them. And if it is more true of private employment agencies than of public, that most of them have been frauds as well as

failures. If we want successful public employment offices we must follow the example of the larger German cities, put people in charge of them who understand the business, who know its principles and technique and who will work with vigor and energy to make their office successful."

The methods that have been followed in Wisconsin so successfully cannot be outlined in this article, but may be taken up in connection with the conditions of our own employment problem at another time."

NANAIMO MINERS WANT ARBITRATION

Head of Dominion Trades and Labor Council is Taking up Question With C.O.B. I.

By Bulletin Local Wire.

VANCOUVER, Oct. 31.—The striking miners of Nanaimo are applying to the department of labor for the appointment of an arbitration board under the Lemieux Act. It is understood that the government is desirous of putting a speedy end to the labor trouble on Vancouver Island, and will at once issue the necessary permission and take steps to get the board working over.

J. C. Waters, formerly of Victoria, now head of the Dominion Trades and Labor Congress with headquarters in Ottawa, is taking up the matter today with Hon. Mr. Cookman, minister of labor. Mr. Waters is acting for Frank Patterson of the United Mine Workers. Under the act the men may, if

they see fit, choose as their representative, an international officer of their union, but it is believed here that they prefer to nominate a citizen of British Columbia to represent them. Mr. Cookman is expected to call on the employers to nominate their number, and the department will then choose the third arbitrator, so that the committee may have no time in getting to work.

SASKATCHEWAN LEGISLATURE.

NEWARK WILL NOT BE SOLD THIS SEASON

Brooklyn Club Placed Too High a Valuation on Stock Necessary

By Bulletin Licensed Wire.
NEWARK, N.J., Oct. 31.—Control of the Newark Baseball Club of the International League will remain with the owners of the Brooklyn National League for the present. The arrangement whereby a number of Newark business men sought to purchase the control from the international body was abandoned at a conference today.

The business men decided that the valuation of \$175,000 which Charles H. Ebbets, president of the Brooklyn Club, had placed upon 222 shares of stock, which he and his associates controlled was excessive in view of the fact that the International championship club had lost by draft so many of its star players to the Brooklyn Club.

LIKES POLICEMEN.

"Kid" Ryan, a lightweight boxer of repute in Boston sporting circles, doesn't understand the Montreal street railway system. He doesn't like a car and a certain car conductor and motorman working on a St. Catherine street car. It happened this way: "Kid" was in a hurry, and, as he said, could not afford to miss the car in question. He had only a ten dollar bill with which to pay his fare and the conductor would not take this. "Kid" was determined not to miss the car, and refused to get off. The conductor tried to assist him, as it were, but the hapless little stranger got under the car. Then the motorman came to the scene of strife and joined in. "Kid" was not being assisted off the car, however, and the conductor and motorman couldn't put him off. A policeman was requisitioned and the officer, all honor to him, paid "Kid's" ticket. Master Ryan entertains a high opinion of the Montreal police just now.—Montreal Mail.

OLD COUNTRY FOOTBALL

A glance at last Saturday's football results in the First Division goes to show how completely how full of uncertainty football is. This uncertainty makes the game intensely fascinating to the hundreds of thousands of spectators that flock to the arenas of football clubs.

There were seven visiting clubs successful in the First Division last Saturday which means that seven home clubs had tales of woe to tell. Preston North End were the only home club to win and strange enough it was their first victory of the season. Chelsea's win at Aston was one of the unexpected. Aston Villa are playing very erratically this season; they are reputed to have the best goal-keeper in England, but even Hardy, master as he is, cannot prevent them losing matches if their forwards do not assist offense. Oldham Athletic vanquished Liverpool in convincing style, and should take chief honors for the best performance in the division.

Liverpool especially at Liverpool had a fine victory. Bradford City had to knock under before their own supporters to surrender, and Derby County had to be blown to the famous old Throates. West Bromwich Albion, Bolton Wanderers defeated Middlesbrough by the odd goal in five at Middlesbrough, and Manchester United did well to bring both points from Newcastle. Quite the tit-bit of the afternoon was the battle royal at Sheffield where the two notorious Sheffield clubs crossed goals in the United's ground. The Wednesday won because they scored a goal, which the United failed to do for the first time this season. Oldham Athletic now remain the only club that has scored in all its matches. There was a grim struggle for supremacy between Tottenham and Blackburn Rovers on the former's ground; both clubs scoring three goals.

The forwards in the second Division excelled themselves last Saturday by scoring quite a number of goals. Birmingham had an unhappy relief at Middlesbrough; to be beaten by seven clear goals is very humiliating for a side, but it is a relief for the club, as the followers of Eileen Forster had the mortification of seeing their favorite beaten on their own ground by a club nearer the bottom than the top of the league table.

ground by a club nearer the bottom than the top of the league table. Stockport County were their vanquishers, the score being 2-3. Barnsley suffered their first defeat, and before their own admirers, too. Leeds City had the distinction of making them reverse and march to the tune of "I, I, I." However Barnsley have the honor of being the only club that hasn't failed to score in all its matches so far this season; so there is some consolation to be had from that single goal. Preston North End were the only team to win away from home, defeating Notts County by the odd goal in five. The other results produced no surprise. Fulham strengthened their position and further jeopardized Notts County's position winning by 2-5.

Saturday's results in the Southern League go further to manifest the fickleness of football, for out of the first eight clubs at the top of the league table only two managed to win, and all the others lost. It was a case of the mighty falling. Swindon and Crystal Palace retain their position, while the other clubs move down to make way for Plymouth Argyle and Brighton and Hove, who jump from ninth and tenth place to third and fourth respectively. There is a keen contest for second place in this division. The four bottom clubs all managed to win, thus narrowing the gap which one usually sees in between the bottom and the top of football league tables.

FEDERAL READY TO DECLARE WAY

Stealing of Alcock Puts Federal League up Air—It Will Start Trouble

INDIANAPOLIS, Oct. 31.—A declaration of war upon organized baseball is expected to be the result of the meeting of the managers of the Federal league who will convene here tomorrow for a two days' session. This seemed to be the unanimous opinion of the organization promoters and supporters who arrived tonight.

The recent slaying of shortstop Alcock of the Indianapolis Federal club by the Chicago American league team has brought the matter to a point where war must be declared or the Federal league suffer from the invasion of the major league clubs, representatives of the new organization said. Just what plan of action the managers will adopt, none of them would say tonight.

"WHITE HOPE'S PASS

NEW YORK, Oct. 30.—One of the disappointments of the early fight season here was the showing of Al Reich, former amateur heavyweight champion, who blossomed out as a "white hope." Bad match-making was largely responsible for Reich's downfall. He is a strapping big fellow, well built and apparently has everything that a champion should have so far as physical fitness is concerned. He is mighty shy on experience, however. Running him into Carl Morris in what was virtually his first professional fight, aptly the name. Reich didn't know even how to keep out of the way, and went out in two rounds. A slow, snuffling up and Reich may yet be heard from.

In passing it may be mentioned that Morris is showing a little more than that it was ever suspected he had lurking about his person. He is bigger than the sides of two houses and pined up a surprising amount of knowledge within the last year. He certainly has Gusman Smith's manner, and Gusman was estimating about New York as the real goods in the heavyweight line.

There is nothing quite so lacking in merit and an over-played in any line of sport today, as the heavyweight division of the fight game.

"White-hopes," they call them. Individually and collectively they shoulder about as much hope for conquering the black leaders of their division as Paul Sikors.

The chronic, applied to likely looking white heavyweights' soon after Johnson gained full claim to his title by conquering Jim Jeffries at Reno, has served but one purpose and that has been to begin and end with the night promoters. He beginning existed in prom tales and in late receipts. The promoter has fattened his bank account and the so-called "white hope" shared in the spoils. The public plays the "fool" part of the farce.

MATTY LIVES AGAIN

DALLAS, Texas, Oct. 31.—Hard hitting work for the Chicago White Sox over the New York Giants here today 2 to 0. Mathewson allowed 14 hits, including two doubles and two triples, while Leverage was in trouble only once.

Score— R. H. E.
New York 000,002,000—2 1 1
Chicago 001,020,000—3 14 2

TRACERY IS WITHHELD

LONDON, Oct. 31.—The famous racehorse, Tracery, belonging to August Belmont, of New York, has run his last race, according to an announcement made here today. The colt, for which \$250,000 was refused by his owner on September 28 last, is to retire immediately to the stud. He is a four-year-old son of Rock Sand, the English stallion, by Topkapi, and was first brought out for last year's Derby, when he ran third.

M'DOUGALL & SECORD TO BUILD BIG BLOCK ON SECOND ST. SITE

Plans of Proposed New Building Have Not Yet Been Decided Upon

LOSS IN FIRE \$40,000; INSURANCE WAS \$10,000

Work of Clearing Away the Debris Will Be Commenced at Once

(From Evening Edition.)

In place of the frame skating rink and grocery buildings which were completely destroyed by the Thursday night, an second street, there will be erected a large modern block, but just what decision has not yet been decided by the owners of the property, McDougall & Secord. The Bulletin yesterday afternoon, J. A. McDougall stated that the debris on the site would be cleared away immediately, and the chance were that a large block would be commenced very soon. As yet, however, it was too early to give any complete information, as the firm had not decided exactly as to what description the building would be, or when it would be started. That they would put up a block, however, was certain. The original cost of the buildings on the site was \$10,000. The Franklin cost \$25,000 to erect, and the Armoury \$15,000. They were insured for \$10,000, divided between the following insurance companies: Atlas \$2,500, Northern \$2,500, St. Paul \$2,500, Guardian \$1,500 and Winnipeg \$1,000.

GENERAL DIAZ IS ON HIS WAY TO U.S.

Leaves Vera Cruz for Progresso—Will Take Board Cuban Mail Steamer

Vera Cruz, Oct. 31.—General Felix Diaz and his companions put to sea today on board the American battleship Michigan to which they had been transferred by Rear Admiral Fletcher from the flagship Louisiana. The course of the Michigan was laid for Havana.

No public announcement of the departure of the fugitives was made and friends of General Diaz on shore were unaware this morning that he had left.

Two German warships, the Hertha and the Bremen, are now in port, the Bremen having arrived from St. Thomas.

General Diaz and his party were bound to a point off Progresso, Yucatan, where they will be transferred to a Cuban mail steamer. This information was received by the navy department today in a despatch from Rear Admiral Fletcher. The battleship Michigan, carrying the refugees, should reach Progresso tomorrow. Admiral Fletcher did not say upon what vessel the refugees would sail and no mention was made of their ultimate destination.

Encountered Heavy Gales.

Queenstown, Oct. 31.—Fierce gales and fog were encountered by the American liner steamship Merion on her voyage from Philadelphia. Her twelve day passage was a very trying one. On Monday the sea carried away several of her lifeboats, and some of the wreckage was thrown clear over the bridge, severely injuring the officer on watch.

THIRD VICTIM OF RAY TRAGEDY DEAD

Cleve Culbertson, Former Hu. band of Mrs. Dillon, Charged With Triple Murder

Ray, N.D., Oct. 31.—D. T. Dillon who was shot down with his wife and daughter at the Dillon farm, some days ago, died today after lingering between life and death. Trading Dillon, a brother from Indiana, who has been at the bedside of the dying man since last Saturday, is suffering a nervous breakdown as a result of the tragedy. He is going back to his home in Indiana. He is said to believe that some one is pursuing him to kill him. The death of Dillon destroys an important link of evidence upon which the authorities based the charge that Cleve Culbertson, under arrest at Williston, committed the triple murder. Feeling run high and the fall in which Culbertson is held is under guard.

Dillon, in a dying statement, accused Culbertson of the crime.

Jamburg-American Liner Rescued 22 of the 25 Men in Crew

Hamburg, Germany, Oct. 31.—Twenty-two of the twenty-five men in the crew of the French bark, Hattie, were rescued today in mid-ocean by the Hamburg-American liner Kron Princess in Cebu. The liner found the bark burning and disabled in mid-ocean, according to wireless reports. The German captain launched boats and took off the crew. Three of the French sailors had been washed overboard and drowned just before the arrival of the liner.

The bark was a vessel of 200 tons displacement and hailed from Pad camp, France.

The Kron Princess Cebu is on the way here from Mexico.

THERE MUST BE SOME GOOD REASON WHY, when a merchant comes out and offers his goods at this season, without any restrictions, at prices which barely represent the first cost of production. WE ARE GOING TO GIVE "OUR REASON" TO YOU STRAIGHT, in a very few words, and ask you to help us. We have \$10,000 in bills to meet before the 15th of November—that is the time when bills for all Winter goods come due. We've always met them and we intend to this season; but we've got to employ drastic methods to do it.

It's a business proposition for you as well as for us. We sacrifice all profit in order to raise cash to meet our obligations. Coming at this time must mean a great deal to those of you who need Winter Clothing. We challenge any merchant in this city to offer goods of higher quality than those we describe and quote in this ad.

During this Sale we won't tolerate a single misrepresentation to be made by those who serve you. This is an honest effort to meet urgent demands, and we want your assistance.
